

### ACTIVE RFID

#### AN410 1/2 Wave Whip Antenna

The AN410 is a high gain linearly polarised antenna ideal for applications where long range reads are required.

Typical read ranges on High Gain are 100-150m.

#### Specifications

##### Electrical

- Frequency : 433 MHz
- Gain : 5 dBi
- Polarisation : Linear
- Impedance : 50 ohm
- VSWR : < 2 :1
- Power Rating : 5 W

##### Physical

- Colour : Matt Black
- Weight : 35 grams
- Temperature : -40°C to +70°C
- Connection type : 50 ohm BNC
- Length : 32 cm

##### Ordering & Further Information
